Quadruple Plate Silverware.

We have something now that we know will be received with great favor, for two reasons In the first place, it is useful, artistic and good; in the second place, it is a bargain.

We are talking about the magnificent tea set shown in the illustration above. It consists of four pieces-teapot, cream-pitcher, sugar-bowl, and spoon-holder. The cream-pitcher and spoon-holder are gold-lined. It is frost finish, with bright trimmings. It is delicately chased. The forms are pure, modeled after examples of Greek classic art, as will be noticed

We have secured a teapot of extra large size, being about one-third heavier than in the ordinary silver service. The ware is quadruple plate, so stamped and guaranteed. It is just scriber, who will receive the paper for Editor National Tribune. such a set as sells in the ordinary retail stores for from \$8 to \$9. In all cases these goods are sent by express, and the receiver will pay the charges, more on account of convenience and dispatch in doing business than for the amount involved, because the charges will be but trifling to any part of the country where there is an express office.

It will not take an hour for anyone to get up this small club of only four subscribers at \$1 each for the best family newspaper in the U.S.

It is as good a timekeeper as an \$80 gold watch in our neighborhood. I will try and get up another club of four, to get one more. Yours truly, William Keller.
